Summary

Software Engineer passionate about using innovative technologies to solve real-world problems and improve people's lives.

Experience

Mobile Development Intern, *Creative DMS* – Monastir, Tunisia July 2026 – Aug 2026

- Built **responsive UI screens and reusable components** for a React Native Expo mobile application
- Integrated backend APIs to enable core app features, improving **data flow between client and server**
- Collaborated with the development team using **Git** in an **Agile** workflow, participating in code reviews and sprint planning
- **Technologies used:** React Native, Expo, Git, REST APIs

Final Year Project (PFE), TSINetwork – Mahdia, Tunisia Feb 2025 – June 2025

- Built a camp management mobile app with **multi-role access** in **5 months**
- Designed 10+ responsive UI screens for equipment tracking, used by multiple staff roles
- Implemented responsive mobile architecture and reusable components, reducing development time by **20%**
- **Technologies used:** React Native, TypeScript, MongoDB, UI/UX Design

Software Development Intern, SYNC – Taboulba, Tunisia June 2024 – Aug 2024

- Developed back-end services with Laravel and integrated 6+ third-party APIs, saving 3 hours/week of manual data entry
- Delivered a home appliance e-commerce store (PrestaShop, Shopify) **within a 2-month deadline**
- **Technologies:** PHP, Angular, JavaScript, React, SQL

Education

Private Higher School of Engineers (ESPRIM), Software Engineering Degree Sept 2025 – Present

Higher Institute of Computer Science (ISIMA), National Licence Degree Sept 2022 – 2025

Projects

LexOffice 2026

- Built a cross-platform law-firm management app in React Native (Expo Router) with case tracking, client and document management, and calendar scheduling across 12 screens

AI Networking Copilot — B2B Event App 2026

- Developed an AI-driven matchmaking feature for a B2B event networking app (React Native, Node.js), using the Claude API to generate real-time compatibility scores and meeting-slot suggestions

Combat Sports Management System 2026

- Developing a desktop application for combat sports management, covering athlete profiles, competition tracking, and performance analytics using JavaFX, Java and MySQL

BrillazCamp 2025

- Built a cross-platform mobile app (React Native, JavaScript) enabling parents to manage required materials across different camp types

Skills & Technologies

Programming Languages: JavaScript, Python, Java, Dart, C, PHP, HTML/CSS

Frameworks: Angular, React, React Native, Laravel, Symfony, Node.js

Databases: MySQL, MongoDB

Data & Environments: Conda, Miniconda, Google Colab

Tools: Git, VS Code, Scrum

Soft Skills: Teamwork, Problem-Solving, Communication, Adaptability

Languages

Arabic: Native

French: Fluent

English: Fluent
